PROFESSIONAL SUMMARY

Gen AI Engineer with experience developing and deploying enterprise AI solutions using Large Language Models (LLMs), Python, FastAPI, AI agents, automation workflows, and cloud-native technologies. Experienced in enterprise AI application development, backend engineering, API integrations, document intelligence, and SAP BTP. Contributed to AI solutions for global clients including Siemens Energy and Airbus through the iR2D.ai platform.

WORK EXPERIENCE

Gen AI Engineer Dec 2025 – Present
Tata Consultancy Services Limited *Nagpur, Maharashtra, India*

Contributed to the development and deployment of enterprise Generative AI solutions for global clients including Siemens Energy and Airbus. Worked across AI application development, backend engineering, enterprise integrations, cloud deployments, testing, monitoring, and CI/CD. Collaborated with Agile teams to build and deliver scalable AI solutions for enterprise use cases.

TECHNICAL PROJECTS

iR2D.ai Enterprise AI Platform — Internal TCS Product TCS

Contributed to enterprise GenAI solutions using LLMs, Python, FastAPI, REST APIs, prompt engineering, and cloud-native services.

Siemens Energy – Enterprise Generative AI Solutions Client Project

Contributed to the development and deployment of AI-driven enterprise applications using LLMs, API integrations, workflow automation, and CI/CD practices.

SuccessFactors Custom Forms AI Agent Internal Enterprise Solution

Built an AI-powered document automation solution for converting PDF, DOCX, and ZIP forms into fillable PDFs using document parsing, semantic field detection, layout analysis, and automated PDF generation.

SAP BTP AI Automation & MCP Integration Enterprise Automation

Developed AI automation services on SAP BTP Cloud Foundry with backend APIs, enterprise integrations, MCP connectivity, deployment, and security configurations. “‘

EDUCATION

Bachelor of Technology in Computer Science (Cyber Security) Aug 2021 – May 2025
Shri Ramdeobaba College of Engineering and Management *Nagpur, Maharashtra, India*

Leadership experience as Secretary and Joint Secretary of the Cybersecurity Students’ Executive Council and as Class Representative for 4 semesters. Organized AARHANT’23, a 1 week long cybersecurity awareness event with participation from over 1500 students.

SKILLS

Generative AI: Large Language Models (LLMs), Prompt Engineering, RAG, AI Agents, AI Automation, Document Intelligence, Semantic Search.
Enterprise Platforms: SAP BTP, SAP SuccessFactors, Cloud Foundry, Model Context Protocol (MCP).
Backend Technologies: Python, FastAPI, REST APIs, API Integration, Microservices.
Frontend Technologies: React, JavaScript, TypeScript.
Cloud and DevOps: AWS, Docker, CI/CD, Git, GitHub Actions.
Databases: PostgreSQL, MySQL, Redis.
Core Concepts: System Design, Object Oriented Programming, Data Structures and Algorithms, Agile Scrum.
Security: JWT, OAuth, AES, RSA Encryption, Secure API Architecture.

CERTIFICATIONS

Google Project Management Professional Certificate, Coursera (2024).
Google IT Support Professional Certificate, Coursera (2024).
Zero Trust Cloud Associate, Zscaler (2024).
Patent: A Secure Health Data System, Indian Patent Office (2024).
